### HIGHLIGHTS OF QUALIFICATIONS

- Strong foundation in software development, machine learning fundamentals, and data analysis, with hands-on experience building applications using Python, Java, and JavaScript
- Experience using Python data science libraries (pandas, NumPy, scikit-learn) for data preprocessing, feature engineering, and model evaluation
- Experience developing full-stack and mobile applications using React, TypeScript, Node.js, and REST APIs
- Skilled at rapid prototyping and experimentation, building functional applications and proof-of-concept solutions in agile environments
- Experience translating technical requirements into working software solutions using modern programming frameworks
- Knowledge of cloud technologies and SaaS platforms, supported by AWS Cloud Practitioner certification
- Strong problem-solving, analytical thinking, and ability to collaborate with technical and non-technical stakeholders

### TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C#, JavaScript, TypeScript
- **Web Development:** HTML, CSS, React, SPA, Node.js, REST APIs
- **Databases:** MySQL, Oracle (via Docker)
- **Data Science Tools:** pandas, NumPy, scikit-learn, Matplotlib, Seaborn
- **Cloud:** AWS Cloud Practitioner Certified
- **Data & Reporting Tools:** MS Excel, Power BI, Tableau
- **Development Practices:** Agile methodology, version control (Git), debugging and testing

### PROJECTS

#### GlamUp! Online Beauty Services App

React Native, TypeScript, Expo

- Developed a mobile marketplace application connecting clients with beauty professionals
- Built responsive user interfaces using React Native and TypeScript
- Implemented search, filtering, and booking workflows for service discovery
- Designed modular components and reusable UI structures to support scalable development

#### Machine Learning Data Analysis Project

Python, NumPy, pandas, scikit-learn, Matplotlib, Seaborn

- Performed data preprocessing, feature engineering, and exploratory data analysis using pandas and NumPy
- Built and evaluated machine learning models using scikit-learn
- Analyzed model performance using accuracy metrics and cross-validation techniques

#### Inventory Management System

ASP.NET MVC, C#

- Developed a web-based inventory management system using ASP.NET MVC architecture

- Implemented product management and inventory tracking features
- Designed database structure and implemented CRUD operations

### **Voting Application**

PHP, MySQL

- Built a web application that allows users to submit and track votes securely
- Implemented database connectivity and dynamic content rendering using PHP

## **EDUCATION**

### **Computer Programming and Analysis, Advanced Diploma Sep 2023 – Present**

**George Brown College**, Toronto, ON

- Machine Learning & Data Analysis with Python
- Object-Oriented Programming (Java, C#)
- Full Stack Web Development (React, Node.js)
- Software Development Lifecycle and Agile Methodologies
- Database Design and SQL

### **Bachelor's Degree in Architecture Sep 2012 – Jun 2017**

**Yildiz Technical University**, Istanbul, Turkey

## **CERTIFICATIONS**

- AWS Cloud Practitioner Certification, Credly, Dec 2022

## **PROFESSIONAL EXPERIENCE**

### **Student Ambassador May 2025 – Present**

**George Brown College**, Toronto, ON

- Assisted students with technology-related inquiries, including navigating campus systems, online portals, and computer applications
- Provided guidance on the use of academic platforms, digital tools, and college software systems to help students access resources and services efficiently
- Analyzed student inquiries to identify needs and provide accurate academic, administrative, and campus-related support
- Assessed issues and acted as a liaison between students and college services to ensure appropriate resolution and referrals
- Applied analytical thinking, active listening, and problem-solving skills in a high-interaction, stakeholder-facing role

### **Sales Associate Sep 2024 – Present**

**TJX Canada**, Toronto, ON

- Resolved customer issues efficiently, enhancing satisfaction and loyalty
- Mentored new associates on POS systems and store policies, improving team onboarding
- Recognized by management for teamwork, adaptability, and reliability during high-volume periods

### **Architect Feb 2019 – Mar 2020**

**Mimari Arastirmalar Ltd.**, Istanbul, Turkey

- Reduced material waste by 15% through accurate quantity surveying and ordering
- Delivered multiple interior design concepts that received client praise and approval
- Coordinated with suppliers and contractors to ensure timely and cost-effective procurement
- Assisted in project budgeting and scheduling, contributing to on-time project delivery
